

Portfolio Fix Log :Week 7

Before:

- The mobile navigation was crowded and some links were too close together.
- Project images needed better sizing for smaller screens.
- The contact form needed to remain comfortable and usable on mobile.

After:

- Updated the mobile navigation so the links wrap properly and do not overlap.
- Adjusted project image sizing for mobile screens.
- Made the contact form responsive and full-width on smaller screens.
- Checked the portfolio on a real phone, iPad/tablet, and desktop.
- Tested the navigation, project links, CV, LinkedIn, GitHub, Calendly, and contact form.
- Confirmed that the project images display correctly and the layout does not overflow horizontally.

Testing:

- Real phone: Passed
- iPad/tablet: Passed
- Desktop: Passed
- Links: Passed
- Contact form: Passed
